planet

Proving cabinets with controlled humidity no. 20 cm 60x80 trays

EASE & PRECISION

The prover cabinets in the "PLANET" series are designed for the best management of the proving cycle, controlling temperature, proving times, and relative humidity with maximum security and precision.
Made to the highest quality standards, "PLANET" cabinets are entirely in AISI 304 stainless steel and constructed in one-piece structure with 70mm thick high density polyurethane insulation.
They have pressed bottom with rounded corners for an easy cleaning and are equipped with air ducts specially designed to give uniform air circulation.
The inside humidity is produced by a steam generator and is controlled and regulated by the "touch" electronic control board.
The preset program provides: + 40°C temperature, 90% humidity. The cabinets can accomodate 80x60cm trays.
TECHNICAL DATA:

		ALEV/40
External dimensions (WxDxH)	cm	79x108x214
Capacity	lt	900
Trays capacity	nr	20 60x80
Standard fitting (pair of runners)	nr	20
Max absorbed power Temperature	W	2200
Humidity control	°C	+40
Input voltage	rH%	90%
Climate class		Volt 1x230 / 50 Hz
		5
